## DETAILED ACTION

### *Election/Restrictions*

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-5, 9-10, drawn to a shoe with an upper made of surface of mesh and non-mesh material, classified in class 36, subclass 45.
  - II. Claims 6-8, 11-13, drawn to an upper of a shoe having a front mesh and back non-mesh structure along with a constituent yarn having a melting point lower in the front surface than the back surface, classified in class 36, subclass 55.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions the shoe with the mesh front surface and non-mesh back surface (Invention II) functions differently than the shoe upper with the front mesh surface and second mesh and non-mesh surface (Invention I). Invention I allows for better breathability and flexibility whereas Invention II prevents breathability in certain areas of the shoe.
3. Because these inventions are distinct for the reasons given above, have acquired a separate status in the art because of their recognized divergent subject matter and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.
4. A telephone call was made to Douglas Mueller on November 7, 2005 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 3728

5. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
